

## SPARK EROSION GRINDING (SEG 125) LEASE PROGRAM

### SEG 125 LEASE INCLUDES

**Setco** now offers a complete SEG System with Lease-To-Buy option including:

- SEG grinding spindle
- Copper-tungsten electrode
- SEG power unit
- Spindle mounting bracket

The **Lease-To-Buy Program** is designed for end-users to perform test-grinding of parts and qualify the grinding process without the commitment to buy the SEG system upfront. Details of the lease program are as follows:

1. The SEG Lease System cost is \$5,000 per month.
2. The minimum lease term is (3) months.
3. A deposit of \$5,000, plus an additional \$5,000 for the first month lease is required (\$10,000 total).
4. Two additional payments of \$5,000 per month at the beginning of the 2nd & 3rd month are required.
5. If the customer chooses to purchase the system after the initial (3) month period, the deposit and (3) lease payments will be deducted from the total sale price of \$50,000.
6. If the customer chooses not to purchase the system after the (3) month minimum period, the system can be returned to Setco.
7. If the customer chooses to purchase the system at any time after the initial (3) months and before the \$50,000 sale price is met, 95% of the lease payments and deposit will be deducted from the total sale price of \$50,000.
