March 17, 2023

The move to our brand-new facility in Hebron, Kentucky is now complete. This larger, modern facility positions Setco to remain the global leader in our industry and provides the space to accommodate future growth. Here is some important information:

- We are (and have been) up and running and can accommodate new product and service orders as we always have. Work was diverted to our other US or global facilities as needed to meet deadlines during critical points of our move.
- Please change your records for shipping, billing, and other needs to our new address:
  - **2255 Global Way, Hebron, KY 41048**
  - All phone numbers remain the same.
  - All email addresses remain the same.
- Minor name changes for our US Locations:
  - Setco Cincinnati (Formerly Setco Headquarters and Midwest Service Center)
  - Setco Detroit (Formerly Great Lakes Service Center)
  - Setco Atlanta (Formerly Southeast Service Center)
- Vendors, please send all shipments and mail to our new address above.
  - You will love the easy highway access just off US highway 275.
  - Our receiving and shipping docks are much easier to navigate.
- Travel, we are now just eight minutes from the Cincinnati/Northern Kentucky International Airport (CVG)

We are very excited for the opportunities this move creates for us. Thank you for your patience and we look forward to serving you to an even greater extent. Watch for an open house announcement coming soon, and be sure to watch the animation of the new building.

Sincerely,

Jim Broz  
President
